Rotary Environment Day

29th May 2010

Get set...

Are you ready for **Rotary Environment Day?**
Looking to get a head start?

See over for some ideas for what you can do.

Rotary International
in Great Britain & Ireland

www.ribi.org

Here are some ideas to get you going

- Organise a public anti-litter campaign in your area
- Provide funding for additional litter bins; dog bins and recycling bins in your local town centre
- Encourage schools to become involved in environmental projects
- Support your local "in bloom" competitions
- Help establish an allotment scheme
- Create wildlife havens & corridors
- Clear any neglected ponds and derelict sites
- Plant bulbs, wild flowers, trees and hedgerows
- Promote ways of saving water
- Encourage more efficient ways of using energy
- Use public transport or walk rather than use your car
- Hold a competition for schools to promote the environment

Or, if none of these inspire you, why not come up with your own and let us know about it?
